

## How to Get Library Books for Your Nook Device

### Downloading Software

1. Go to **Farmingdale Library.org** and click on **eBooks/Audio Books**.
2. Download **Adobe Digital Editions** (ADE) under **digital software**, to your computer. This is a free program.
3. Install **Adobe Digital Editions** (ADE) and you will be prompted to enter your e-mail address and password. If you have never signed up for an ADE Account, click the link to **sign up now and sign in**. This is a **one-time** set up.

### Transferring an eBook

**You are now ready to search and transfer an E-book to your device.** If you are not at the Overdrive site already, go to **Farmingdalelibrary.org** and click on **eBooks/Audio Books**.

1. Click on **Advanced Search** tab.
2. At **Format**, drop down the arrow and choose **Adobe EPub eBook** (you can also narrow your search in other ways from here).
3. Click on **Search**. You will be taken to the **Search Result Page**.
4. You can either do your own search within the results or click on the button that says **only show titles with copies available**. Click **Submit**.
5. Choose your book and click, either add **to cart** to download it or, if it's not available at the moment click **place request to reserve it (make sure you have selected the EPub eBook version)**.
6. Click on **Proceed to Checkout**.
7. Select your library from the drop down menu.
8. Type in your **library card barcode** (on the back of the card) and click on **Sign In**.
9. Click on **Confirm Checkout**.
10. **Download the book** and it should appear on **Adobe Digital Editions**. Don't try to use the Acrobat Reader. If you see an option to either open or save the book, choose open. Clicking Save will just save it and not automatically open up the book.

11. Once the book is available, **plug the Nook into the computer using the USB cable.** You may be asked if you want to see the files, but you don't need to see them.
12. You should see the Nook listed on the **left side at the bottom of the Adobe Digital Editions window.** If you don't see the Nook listed, click on the Library View on the top left hand side. If your Nook does not appear, you may need to restart Adobe Digital Editions. Close it and re-open it.
13. You will be asked to **authorize the Nook the first time you connect** to your computer (while Adobe Digital Editions is open). You must authorize the Nook with the Adobe Digital Edition software to be able to transfer and read e-books. **You will need your Adobe Digital Editions user name and password (see step 3 of downloading software).**
14. Once you see the book on the right hand side and the Nook listed on the bottom left hand side, click on the book and drag it to the Nook. Wait until it's copied fully, as indicated by the progress bar.
15. Disconnect the Nook (Make sure you eject properly by pressing the eject button).
16. eBooks transferred to the Nook will be located under **My Library Menu.**

There are no late fees with e-books. Once the item is **due**, you are just unable to open it.

### Returning an eBook early

#### **You are allowed to borrow up to five books at one time**

You do not have to return a library eBook at all. When your loan period is over, the eBook will no longer play. There are times when you are done early and just want to return the book so you can check out other titles. The following instructions will allow you to return an eBook early.

1. Open **Adobe Digital Editions (ADE)** (Should be on your desktop)
2. Select **library view** icon
3. Under the **Bookshelves** heading, select **borrowed**
4. Click the eBook you want to return
5. Click the **items Options** arrow (in the left corner of the selected eBook)
6. Select the **Return Borrowed Item**
7. Click **Return** to verify that you want to return the title
